

CPA-BACKED PRACTICE SUPPORT

Discover your practice's potential.

Your team stays in place.
You stay in control.

Illustrative practice consultation

A thoughtful second look at your operations and finances, combining medical billing experience with CPA expertise from Professional Tax Help.

407-298-3900 | info@protaxhelp.com

DISCOVER YOUR PRACTICE

Start with a question that matters.

You do not need to choose a new billing provider to begin. Start with what is working well and what you would like to understand better.

01

Billing & collections

Where does follow-up need attention? Discuss outstanding claims, recurring denials, payment posting, and reporting.

02

People & workflow

Where does the day feel stretched? Explore responsibilities, handoffs, repeat tasks, and support for the existing team.

03

Financial clarity

How do revenue and expenses connect? Discuss accounting, payroll, cash flow, and financial reporting.

04

The whole practice

What deserves a fresh perspective? Agree on a focused scope around your priorities and schedule.

Start by listening.

Bring your questions. An initial inquiry does not require patient records or a commitment to purchase services. We will discuss fit, scope, and any fees before work begins.

PRACTICE OPTIMIZATION REVIEW

A focused review. A practical way forward.

01 Listen

Share what is working well, where your team feels stretched, and what would make the day run more smoothly.

02 Review

Together, agree on a scope covering billing, staff workflows, payroll, accounting, payer processes, cash flow, or reporting.

03 Clarify

Receive a concise summary of strengths, opportunities, and practical next steps to discuss with your team.

What you take away

Strengths to preserve. Opportunities to consider. Priorities to discuss.

Your team stays in place and you remain in control of any decisions.

No obligation to purchase services or change billing providers. Reviews follow agreed scope, authorized access, and appropriate confidentiality arrangements.

THE CPA ADVANTAGE

Beyond billing. A clearer financial picture.

Illustrative financial advisory team

Connect the numbers behind the care.

Medicclaimz connects medical billing with CPA-backed accounting, tax planning, and financial oversight through Professional Tax Help. Bring collections, expenses, payroll, and cash flow into the same conversation.

Clarity

Organized records and useful reporting.

Perspective

Accounting and tax planning in context.

Coordination

Support around an agreed scope.

COMPLETE PRACTICE SUPPORT

Services that work together.

Medical billing & RCM

Patient registration, eligibility, claim review and submission, payment posting, reconciliation, A/R follow-up, denials, and appeals.

Credentialing & enrollment

Provider credential support and insurance enrollment coordination around payer requirements and follow-up.

Accounting & bookkeeping

Accurate records, financial statements, and a more useful view of expenses, cash flow, and practice performance.

Payroll services

Payroll coordination and reporting to support the people behind your practice.

Tax planning & business advisory

Tax preparation, planning, and financial guidance through Professional Tax Help.

Revenue reporting

Visibility into collections, denials, outstanding balances, and performance to inform next steps.

DISCOVER OUR TEAM

People you can connect with.

Anees Ahmad Tanoli, CPA
